

THE ONLY ALL-INCLUSIVE ECG SOLUTION

Cardea SOLO™ ECG is an all-inclusive ambulatory cardiac monitoring system that combines wearable sensor technology with automated ECG data analysis and reporting software that your institution owns and controls.

Steps To SOLO

7 DAYS OR LESS TO DIAGNOSIS

Cardea SOLO Product Features

Single-use disposable sensor eliminates maintenance

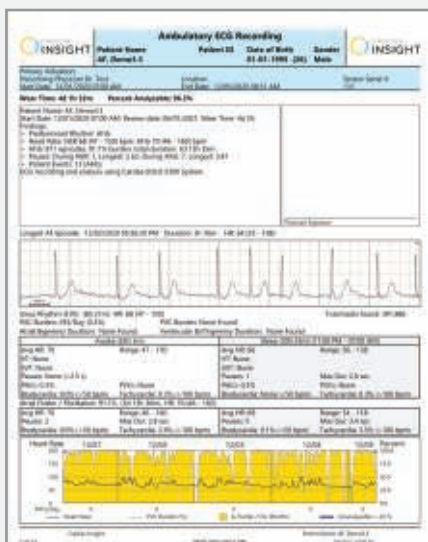

Immediate report generation and access to full disclosure ECG data

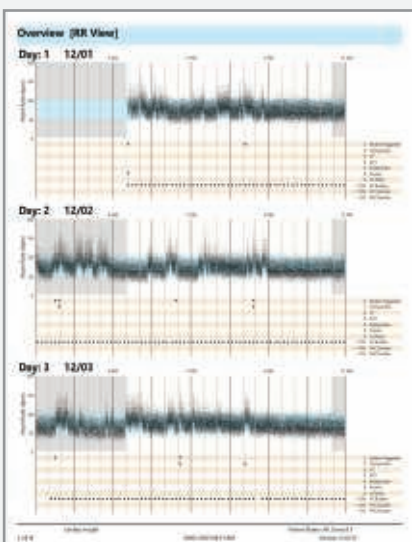

No outsourcing, no waiting weeks for report, no delay in diagnosis

Get Simple. Get Smart. Get SOLO. In-Clinic Arrhythmia Analysis

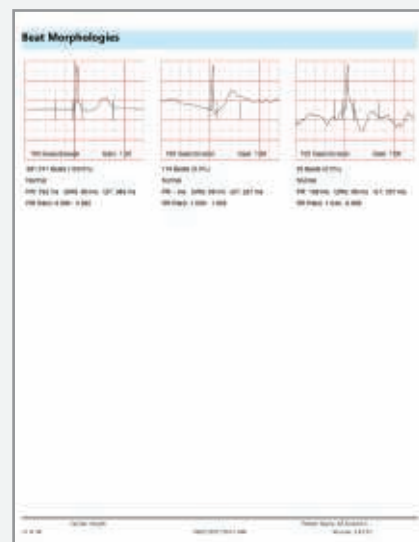

Cardea SOLO™ automates and streamlines the arrhythmia diagnostic process by eliminating expensive and time-consuming third party service providers, and equipment maintenance.

Detailed annotation, including patient triggered events, and paperless diagnostic confirmation

Rhythm Signatures™ allows rapid identification of important rhythms and diagnostic findings

Beat morphologies for each identified beat class
